DETAILED ACTION

This office action is in response to the amendment filed on 9/20/2004 in which claims 1-21 are presented for examination.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jon Beaupre, Reg. No. 54,729, on December 7, 2004. It should be noted that the changes made below are in reference to the Claims of Record filed 9/20/2004.

Claim 1, line 16 "signals form a" remove "form" and insert -- from -- between "signals" and "a".

Claim 18, line 1 insert --of-- between "series " and "residuals".

Claim 18, line 2 "generated which each" remove "which" and insert -- where -- between "generated" and "each".

Claim 18 (of Record), line 2 "fault solation." remove "solation" and insert --isolation.-- after "fault ".

Claim 19 (of Record), line 7 "communication w th the" remove "w th" and insert --with-- between "communication " and " the".

Art Unit: 3661

Claim 19 (of Record), line 9 "to receive input" remove "receive" and insert --receive-- between "to " and " input".

Claim 21, line 2 remove the first occurrence of "the". The first part should read: -- generates fault decision signals--.

Allowable Subject Matter

Claims 1-21 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 1-21 are allowable because the prior art of record does not include: a method of model-based fault detection for a vehicle Steer-By-Wire system that includes: a steer-by-wire controlled plant, a steer-by-wire controller, a steer-by-wire fault detection unit, a residual generator based on the model of the steer-by-wire control plant, a decision-making unit included in the steer-by-wire fault detection unit, and the generation of fault decision signals to determine the fault occurrence in the sensors, actuators and controlled plant.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

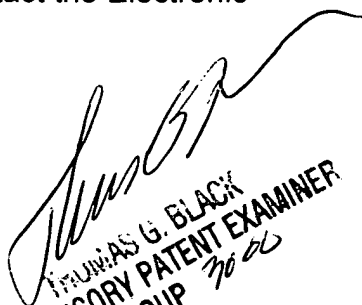

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christine M. Behncke whose telephone number is (703) 305-0589. The examiner can normally be reached on Monday - Friday 8:30 AM - 5:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas G. Black can be reached on (703) 305-8233. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
